

# a great feeling!

Looking your best at any age

**"My friends say I look more refreshed."  
- Iolanda**

## 30s

**Iolanda's Soft Lift™ treatment** – First her smile lines and marionette lines were smoothed, her jaw contoured and lips enhanced with Juvéderm™. Then, a cosmetic injectable was used to relax and smooth lines around her eyes and forehead.

**"It's made me more vibrant and healthy looking."  
- Kathy**

## 40s

**Kathy's Soft Lift™ treatment** – Juvéderm™ filled in her smile lines and marionette lines, replaced lost lip and cheek volume and firmed up her jawline. To relax Kathy's forehead lines, frown lines and crow's feet, she was treated with a cosmetic injectable.

**"I love the way my face looks now!"  
- Janet**

## 50s

**Janet's Soft Lift™ treatment** – Juvéderm™ was used to soften the lines around her mouth area, to plump up her cheeks and add contour to her jawline. A cosmetic injectable was used to relax and smooth the lines and wrinkles in the upper part of her face.

Aging is a natural process and every stage of life has its rewards. Why not make the most of whatever age you're at? Your cosmetic doctor can help you look your best with a personalized Soft Lift™ makeover. The Soft Lift™ combines the use of Juvéderm™ dermal filler with a cosmetic injectable to instantly refresh your look in a single treatment.

As you age, your body's rate of cell renewal slows down. With less collagen and elastin to support it, the skin thins out and wrinkles and volume loss occurs. Juvéderm™ is a dermal filler that uses hyaluronic acid, a sugar that occurs naturally in the body, to smooth wrinkles and bring back lost fullness. A cosmetic injectable softens and relaxes lines, such as crow's feet, forehead lines and frown lines between the brows.

Here's how a customized Soft Lift™ makeover helped these three women look their best. Imagine what a Soft Lift™ could do for you!
